DETAILED ACTION

This action is responsive to application filed 06/29/2001.

Claims 1-31 are currently pending in this application. Claims 1, 24, 30 and 31 are independent claims.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23, are drawn to a database including distributed or remote access feature, classified in class 707, subclass 10.
- II. Claims 24-30, are drawn to a Graphical User Interface included Proximity detection feature, classified in class 345, subclass 862.
- III. Claim 31, is drawn to a display-processing document including version management, classified in class 715, subclass 511.

The inventions are distinct, each from the other because of the following reasons:

Inventions I through II are related as criteria of distinctness for combinations disclosed as usable together in a subcombination or element of combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as distributed; invention (II) has separately utility such as Proximity detection; invention (III) has separate utility such as version management, (See MPEP § 806.05(c)).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, Group II is not required for Group III, restrictions for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
